We are the very first Rotary Club that is based purely online in WA. This enables people living in remote and regional areas or those who find committing and travelling to a standard Rotary meetings difficult, the option to still provide a service to their local community by joining our Rotary E - Club of E-WA. It's a new and vital Rotary Experience. We meet via online webinars and the use of Facebook, both open to the public and private sessions. We also use email with occasional face to face catch-ups.
