3. SCOPE OF WORKS

3.1 SCOPE OF WORKS

Tenders are invited from suitably experienced Contractors for the Narembreen Airfield Ground Lighting Replacement Project located at Narembreen Airfield, 404 Emu Hill East Road, Narembreen.

The scope of works requires the runway lighting system be upgraded by the replacement of all elements of the existing runway lighting system. This includes but not limited to replace the existing runway and taxiway lighting with new LED models to meet specifications via the supply and installation of required runway lights and associated equipment and connection to the Existing Control Panel.

- 1) Design
- 2) Preliminaries
- 3) Runway and Taxi Way Lights Replacement
- 4) Commissioning
- 5) New Mid Hinged LED Illuminated Wind Indicator
- 6) Practical Completion
- 7) Provisional Item - Relocation of the PAL System

3.2 PROJECT OVERVIEW AND BACKGROUND

Certification

Narembreen Aerodrome is a non-certified Aerodrome. Although not required to comply with CASA MOS 139 requirements, the approach adopted in this upgrade has been to use the CASA requirements as a benchmark on the assumption that where possible and practical the Shire wishes to achieve compliance.

The airstrip caters principally for light aircraft with MTOW of less than 5700kg and has a main and cross runway. The main runway is approximately 1000 metres in length and is lit with permanent runway lighting used primarily by the RFDS. The cross runway is unlit.

Existing Lighting

Narembreen Aerodrome is presently serviced by existing airside lighting. The existing lighting facilities consist of a mains powered runway lighting system with Illuminated Wind Indicator. Edge lighting is provided to the taxiways using solar lighting independent of the runway system. A new AGL control panel has recently been installed in the Shire maintenance shed. The control panel contains the mains isolating transformer of the runway lighting and is fitted with a pilot activated lighting controller to provide the capability for RFDS pilots to activate the lighting on approach to the aerodrome at night.

This lighting consists of:

- Edge lighting to the main east west runway, at 90 metre nominal spacing and lateral spacing of 30 metres nominal.
- Threshold lighting to the main runway
- Illumination of the primary windsock

- A control panel with Pilot Activated Controller installed in the Shire's maintenance shed.

The method of operation of all airport lighting is local via switch in the control panel or remotely by air-band radio using a Pilot Activated Lighting Controller (PALC).

The lighting does not extend to the runway ends on both approaches, significantly reducing the available runway length for night operations. It is noted that the sealed areas at the extended runway ends require a minimum of a 30metre graded strip beyond the runway end and an obstacle free approach surface of 5% from the end of the graded runway strip.

AGL Condition Assessment

An Airport Ground Lighting (AGL) Condition Assessment was undertaken in 2024 by Airport Alliance Contracting. This investigated the condition of the Narembeen Airport Ground Lighting and identified the most significant areas of noncompliance with current CASA MOS 139 Standards and Australian Wiring Rules Standards AS/NZS 3000-2018.

This assessment determined all elements of the system to be aging and degraded, at the end of design life and, in most cases, non-compliant with current standards including the Australian Wiring rules AS 3000-2018. It recommended, the most effective way to upgrade the existing facilities to achieve compliance with current standards and benefit from new technology is by replacement of the complete system.

the Principal must notify the Contractor within 10 Business Days of the claim for an extension of time under Clause 18.4 (or such other time agreed by the Parties) that an extension of time to the Completion Date is granted. 18.7 If the Principal, considers (acting reasonably) that the Contractor is not entitled to an extension of time, the Principal's Representative must notify the Contractor within 10 Business Days (or any other period agreed in writing by the Parties) of receipt of the claim under Clause 18.4 that the Completion Date remains unchanged.

18.8 If the Contractor fails to comply with Clause 18.4 the Contractor will have no entitlement to an extension of time of the Completion Date.

18.9 If an extension of time is granted in accordance with this Clause 18, provided that those costs are not also reimbursable pursuant to Clauses 27 or 28, the Principal will reimburse the Contractor for any costs reasonably incurred and directly attributable to the delay, but without regard to overheads, profit or any other cost, loss, expense or damage.

 - (b) by deducting such amount from any amount owed to the Contractor by the Principal,after the elapse of the Completion Date.

- 20.5 If, as a result of any review, inspection, examination, or witnessing of testing, the Principal is not satisfied that the Goods and/or Services will comply with this Contract and the Contractor is notified in writing of such dissatisfaction, the Contractor agrees to take such steps as are necessary to ensure compliance.

- 28.2 When the Contractor receives a written notice of suspension from the Principal or the Principal's Representative, the Contractor must suspend the performance of its obligations under this Contract until such time that the Principal or the Principal's Representative directs that this Contract is no longer suspended. - 28.3 Where the suspension of this Contract is not a result of any default or action by the Contractor or the Contractor's Personnel, the Principal will reimburse the Contractor for the Contractor's verified reasonable additional costs incurred as a direct consequence of the suspension of this Contract. For the avoidance of doubt, such costs must not include Consequential Losses.
- 28.4 If the Principal or the Principal's Representative suspends this Contract or any part of it in accordance with Clause 28.1 (other than where such suspension is due to default or action by the Contractor or the Contractor's Personnel), the Completion Date and the End Date are extended by the period of that suspension.
