

Candidate Profile

I have been a member of the Narembeen Community and have lived in this town for the last seven years. Although I have not grown up in this town, I do believe it to be home for me and my family. I believe I am well-adjusted within the community and people know I am a real local.

I have always made an effort to get out and around the community and do my part in supporting the locals, through owning and operating a few of the local businesses in town I have been able to provide growth in tourism, employment opportunities, donations for the town sporting clubs as well as donations to the school for their math's program.

I believe being a Councillor would be an extremely rewarding opportunity for myself to further contribute to the town and help the locals. I believe that I would be able to influence the long-term vision and direction for our community, by balancing the needs and priorities of our community members, stakeholders, local businesses and external opportunities for further growth and promotional prospects for this town. I will strive to help make the best decisions for our community.
