

To Whom it May Concern

I Justin Fidge, am seeking nomination for election in Local Government. My partner and I operate a mixed farming enterprise between 35km East of Narembreen. With a large young family, as well as being a fourth generation farmer with over 30 years' experience as a primary producer, I am passionate about ensuring the ongoing productive management of the Narembreen Shire. In particular, I would like to analyse and effect proportionate spending within the Shire, with reference to annual paid rate charges. Pursuant to this I feel greater attention is needed on road upgrades, in conjunction with associated localised land drainage.
