	<b>Wayfinding Signage</b>	No Need for one at Churchill Currall intersection - with digital signage There is a need for more signs Could do with some more May Help Could also include directions to local businesses Change sign at Crn Longhurst & Latham - cant see around the corner Would advertise what businesses are in town for tourist Sign before entrance of town so cars and caravans can slow down to read it Good Idea	17	11	4	3
1	Wayfinding Signage Panels					
	<b>Lighting Improvements</b>	LED upgrades needed, Good to consider Star gazing recommendation for future options Not to many in Carpark at night Nobody uses savage land after dark, same as IGA carpark Only need more lights behind Town Hall Savage Lane Carpark only used by Shire Staff No one uses Savage St at night time & IGA	13	13	6	8
2	Lighting Improvements					
	<b>Pocket Parklet</b>	Already have plenty of areas / Community Precinct and IGA carpark currently underutilised Would help to cater and encourage more tourists and visitors We love sitting spaces Good Idea As long as doesn't prevent access along pathway Permanent covered seating adjacent to co-op a good idea No, already have seating and shade across the street Busy needs more seating - Encourage people to socialise in town After 12 months look untidy - would need maintenance - MOU Please dont remove disabled parking bay - possibly add an additional bay in front of pharmacy	14	8	10	5
4	Pocket Parklet					

## Community Survey Ranking

5	New Play Space	<p>Toddler friendly is in the carpark area (**not enclosed) Make a pet-friendly area instead</p> <p>Safe Kid playgrounds are always a great idea</p> <p>Kids may run out onto the road (**enclosed)</p> <p>Can it be a Nature play area - what about history that is there</p> <p>The playground at Apex park seems more suited to 5+ year-olds.</p> <p>Removes focus on the excellent facility at Apex Park</p> <p>Just had Apex Park Upgrade (note - no toddler-enclosed area at Apex Park)</p> <p>Encourage people to socialise in Main St, supporting business Target 0-7yrs</p> <p>Already have playground Apex Pk so wouldn't get used - Enclosed Toddlers only</p> <p>Something close to shops would be good - convenient for shopping too.</p>	11	12	9	9
6	More Pedestrian Crossing Points	<p>Great places for crosswalks</p> <p>Overkill for Narembeen</p> <p>Already enough crossings in Narembeen</p> <p>Not needed</p> <p>Could present more safety hazards if on main road near roadhouse</p> <p>Would make clearer and safer for kids and elderly</p> <p>Need to remove carparking at walkway at IGA as you cant see people using it when driving</p> <p>Existing crossing from IGA to coffee shop is good. Some improvement may be of benefit</p>	10	11	11	11
7	New Pedestrian Pathways	<p>Main Street improvement first, Yes to Churchill / Longhurst &amp; Connolly to Churchill No to Connolly to Savage No to Aquatic / Roadhouse - Check previous Pathway Plan adapted by Council</p> <p>The walkway around the lake is great</p> <p>Would be a great Asset</p> <p>Good Idea</p> <p>Good Idea - not priority</p> <p>This would complement the hall well. Enhancing the new development at the hall</p> <p>A definite no to removing tree canopy</p> <p>Agree with pathways connecting Longhurst , Churchill and Aquatic Centre to Roadhouse</p> <p>No Nothing along Savage Laneway for Tourist to see</p> <p>Need to fix up other streets first</p>	21	4	7	2

## Community Survey Ranking

<p><b>8</b> Increased amenity through Savage Lane</p>	<p>The west end of the Eastern Side is often blocked by trucks delivering to Elders. Creating link to Townhall interpretive area across Savage Lane would be a priority            Vehicle Traffic only, used for deliveries, good to seal and made one way only            Would be nice            Bitumen would be great - a disgrace after rain            Keep as trade route - not for pedestrians            I dont think savage lane would ever be a place of interest to visitors            A path is all that is needed to connect the shire to Main Street Carpark small and used by staff            Cars not parked very long            Use trees already there, encourage businesses to use carparks            Long term parking OK but short-term will continue to park in the street</p>	<p><b>11</b>    <b>6</b>    <b>15</b>    <b>10</b></p>
<p><b>9</b> Increased amenity (shelter) through IGA carpark</p>	<p>If Shade sails - a waste of time &amp; money - will blow away            Would like to see solar panel on it as per Northam            Enough shade from trees already            Esiting seating &amp; tables in front of carpark could be improved</p>	<p><b>14</b>    <b>7</b>    <b>11</b>    <b>6</b></p>
<p><b>10</b> Increased amenity in the Community Centre Carpark</p>	<p>Staff Carpark. No need to be covered            Shade would be nice            Would look good            Is lighting necessary?            Need new lines and signage            Draw attention to existing artworks via app or signage            Great idea. Make it more interesting but not overdo            Love street art and Narembeen has some great artist to showcase            Add to Town appeal - more colour            Waste of money</p>	<p><b>6</b>    <b>13</b>    <b>13</b>    <b>14</b></p>
<p><b>11</b> Public Art</p>	<p>Yes, but not priority there are many more things not captured on this survey            What would it look like in 5years time - outdated need redoing</p>	<p><b>8</b>    <b>10</b>    <b>14</b>    <b>13</b></p>
<p><b>12</b> Historical Interpretation</p>	<p>Combine with #11 Public Art            Need to keep our past alive - historical society important            Leave historical places - tourists travel a long way to see history and how things were.            Yes have taken many visitors through the town and they like interpretative signage</p>	<p><b>13</b>    <b>13</b>    <b>6</b>    <b>7</b></p>

Community Survey Ranking

<p>13 St</p> <p>Setbacks through Main</p>	<p>Utilise space to incorporate Planters, Seating and Public Art only if needed            More interesting to have it as it is            Waste of \$\$            I don't like the idea of closure</p>	6	7	19	15
<p>15 Churchill St</p> <p>Reduce Parking in</p>	<p>Divert Traffic away by prioritising parking elsewhere            Creative use of soil/gravel/metalwork as done well in Albany            No more dead-looking plants or stading needed            Full Street parking needed especially for the elderly or young families            Leave as is - Garden uses too much water in a drying climate            Enough gardens now not being watered and looked after - dying            The street is full now and IGA carpark is hard to get trolleys to as sloping footpath            Change back to angle parking (confusing space)            Great idea if improved pathways and additional crossing points are also added            Aging population so parking needs to be close. No more gardens - drying climate            Median Strip needed            Eliminate parking bay West of Crossover, difficult for motorists to see pedestrian from IGA side            The main street changed to many times over the last two decades Perhaps a garden where the walkway crossings are            If people cant park in shopping area they will travel away, against this idea as will make it difficult for elderly people</p>	5	9	18	16
<p>16 access to main St</p> <p>Caravan parking and</p>	<p>Great idea. Easy to do as already has the space            Great idea            If needed - Yes            Focus on long vehicles to, because locals need to park trailers near Elders, Hardware            Main street changed previously so caravans could not go down it            Also yellow marked crosswalk area, appears as a No Parking area at present            Good idea - often end of town there is plenty of room for caravans            Would like to see details first</p>	14	11	7	4

Communty Survey Ranking

**Pavement levels in front  
17 of IGA and Bankwest**

Realign entry point to IGA into Carpark  
Bankwest also a problem  
Especially for the elderly  
Hard with Trollyes  
Level the whole street - help the elderly trying to stay mobile  
Pavement is very uneven and slopes - very important  
Good move. Preventing puddles may be problem

**27**   **2**   **3**   **1**

**Resealing and line  
18 marking Churchill St**

This could wait, however lines definitely need to be done correctly without confusion  
Need to clean up new area at Churchill and Currall St intersection - confused drivers  
Change back to angle parking bays  
Other streets and laneways need work. Doing up Churchill St will not attrach tourist  
They will need upgrading to match the new crosswalks etc  
Some area a bit confusing at the moment  
Existing parking near Post Office, could be improved by using the wasted space on North end.  
Line marking could be done at same time as Churchill St. Two bays could be turned into three.

**10**   **9**   **13**   **12**
